Safety Data Sheet

According to Preparation of Safety Data Sheets for Hazardous Chemicals Code of Practice, Feb 2016

SECTION 1: Identification: Product identifier and chemical identity

Product identifier

Product name OSMER PVP Glue Stick (White)
Trading name OSMER White Glue Stick 40g

Recommended use of the chemical and restrictions on use

Application Adhesive for arts and crafts, school, household, and office use
Uses advised against No specific uses advised against are identified

Company/undertaking identification:

Supplier Australasian Merchandisers Pty Ltd
14/57 Mortimer Road
Acacia Ridge
QLD 4110

Emergency Telephone:

1800 773 222 (Brisbane Time: 8:30 am – 4:30 pm)

SECTION 2. Hazards identification

Classification of the substance or mixture

Physical hazards Not Classified
Health hazards Not Classified

The product is not classified according to the Globally Harmonised System (GHS)

Label elements

Hazard statements Not Classified

The product is not classified according to the Globally Harmonised System (GHS)

SECTION 3. Composition/information on ingredients

Product description: Solid aqueous mixture of organic compounds

Composition ingredients

Water	>55%
CAS No. 7732-18-5	
Classification	
Not classified	
Polyvinylpyrrolidone	20-25%
CAS No. 9003-39-8	
Classification	
Not classified	

	Page 2 of 7	Actual revision:	03-06-2025
		Actual version:	5.1
		Next revision:	03-06-2030

Glycerin CAS No. 56-81-5	approx. 10%
Classification Not classified	

Sodium Stearate CAS No. 822-16-2	< 10%
Classification Not classified	

Sodium propyl p-hydroxybenzoate CAS No. 35285-69-9	approx. 0.1%
Classification Not classified	

SECTION 4. First aid measures

Description of first aid measures

General information: Get medical attention promptly if in doubt. Provide this Sheet to the medical personnel

Inhalation: material not respirable, no specific recommendations

Skin contact: No specific recommendations

Eye contact: Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Medical aid on complains. In all cases of eye contamination, it is a sensible precaution to seek medical advice

After ingestion: Wash mouth out with water and drink some water. Seek medical aid if no improvement in condition

Notes to physician: Non toxic. Treat symptomatically

Protection of first aiders: No specific recommendations

SECTION 5. Fire-fighting measures

Non-flammable solid, product will burn if heated

Suitable extinguishing equipment: Carbon dioxide, water spray, foam, and dry powder

Unsuitable extinguishing equipment: Water jet

Special hazards arising from the chemical: Decomposition gases and vapours, carbon monoxide and carbon dioxide, nitrogen

Special protective equipment and precautions for firefighters:

Actual revision:	03-06-2025
Actual version:	5.1
Next revision:	03-06-2030

Wear self-contained breathing apparatus (SCBA) and appropriate protective clothing. Use pressure air respirator at low aeration and in closed rooms. On extreme conditions chemical protection suit might be necessary.

SECTION 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal precautions: No specific recommendations.
Personal protective equipment: Refer to section 8.
Emergency procedures: Rinse with water and report to corresponding person to deal with

Environmental precautions

As a prevention measure, avoid discharge into drains, water channels or onto the ground

Methods and material for containment and cleaning up

Spilled material could be slippery on walkways. Stop the leak if it is safe to do so and pick up excess with absorbent type material to prevent material damage and wash the area with lots of water. Dispose of waste / material according to the federal, state, and local regulations.

SECTION 7. Handling and storage

Precautions for safe handling:

Keep away from heat and direct sunlight. Keep containers tightly closed.
No specific hygiene practices stated, while general industrial safety and hygiene measures should be performed.

Conditions for safe storage, including any incompatibilities:

Store in a cool, dry place and out of direct sunlight.
Keep containers always tightly closed and dry.

Specific end use(s): No information available

SECTION 8. Exposure controls and personal protection

Exposure control measures

Complies with the relevant national exposure standards.

Expositions Limit Values: Not available.
Measurement methods: Not available.
Technical measures: Not necessary, no exposition expected.

Occupational exposure limits:

This product does not contain any hazardous materials with occupational exposure limits.

Engineering measures:

No specific protection required during normal usage.

Personal Protective Equipment:

Body protection: No specific protection required under normal usage

Respiratory protection:	No specific protection required under normal usage.
Eye protection:	Avoid eye contacts, wear necessary protective equipment.
Hand protection:	No specific protection required under normal usage.
Skin protection:	No specific protection required under normal usage.
General Safety and Hygiene measures:	Do not swallow. Change contaminated clothes and do not reuse until cleaned.
Further information:	This product is classified as non-hazardous. However, the usual precautions for harmful chemical must be observed to avoid contact with the skin, eyes, and respiratory tract.

SECTION 9. Physical & chemical properties

Appearance:	Solid, wax-like mass
Colour:	White
Odour:	Low and typical
Odour threshold:	Not available
pH:	10-11
Melting point/freezing point:	Not available
Initial boiling point and range:	Not available.
Flash point:	Not available.
Evaporation rate:	Not available.
Flammability (solid, gas):	Not available.
Upper/lower flammability or explosive limits:	Not available.
Vapour pressure:	Not available.
Vapour density:	Not available.
Relative density:	Not available.
Solubility:	100% Soluble in water (slowly)
Partition coefficient: n-octanol/water:	Not available.
Auto-ignition temperature:	Not available.
Decomposition temperature:	Not available.
Viscosity:	Not available.
Specific heat value:	Not available.
Saturated vapour concentration:	Not available.
Release of invisible flammable vapours and gases:	Not available.
Particle size:	Not available.
Size distribution:	Not available.
Shape and aspect ratio:	Not available.
Crystallinity:	Not available.
Dustiness:	Not available.
Surface area:	Not available.
Degree of aggregation or agglomeration, and dispersibility:	Not available.
Redox potential:	Not available.
Biodurability or biopersistence:	Not available.
Surface coating or chemistry:	Not available.

SECTION 10. Stability & reactivity

Reactivity:	None for this product under normal usage and storage conditions.
Chemical stability:	Product is considered stable at normal usage and storage conditions.
Possibility of hazardous reactions:	No potentially hazardous reactions known.
Conditions to avoid:	Excessive heat, sparks, or open flame.
Materials to avoid:	Strong oxidizing materials. Hazardous decomposition or other by-products Carbon monoxide and dioxide, nitrogen oxides and hydrogen cyanide
Hazardous decomposition products:	No potentially hazardous decomposition products known.

SECTION 11. Toxicological information

Information on possible routes of exposure

Acute Effects

Ingestion:	Non-toxic, this product is not considered to be harmful.
Eye contact:	This product is not considered to cause toxicity or be irritating to eyes.
Skin contact:	This product is not considered to cause toxicity or be irritating to skin.
Inhalation:	The product is not considered to be an irritant.
Long Term Effects:	No information available for the product.
Acute toxicity:	This product is not expected to cause toxicity.
Remarks:	On appropriate handling and use as intended on our experience and on current information the product does not cause any effects harmful to human health.

SECTION 12. Ecological information

Ecotoxicity:	Small amounts of this product are not expected to cause toxicity to the environment. Components of this material are not biomagnified or bioconcentrated in the environment.
Persistence and degradability:	Not available.
Bioaccumulative potential:	Not available.
Mobility in soil:	Not available.
Other adverse effects:	Not available.
PBT assessment:	Not available.
Remarks:	On appropriate handling and use as intended on our experience and on current information the product does not cause any adverse effects to environment.

SECTION 13. Disposal considerations

Disposal of residues and wastes of the product:

Residues and wastes are to be brought to an incineration site.

Actual revision:	03-06-2025
Actual version:	5.1
Next revision:	03-06-2030

Disposal of contaminated packaging:

Contaminated packaging is to be brought to utilisation or disposal by redemption systems or licenced waste management service.

Disposal of Completely emptied packaging:

Completely emptied plastic packaging can be brought to a substantial utilisation.

SECTION 14. Transport information

Land transport (ADG code): Not regulated.
Air transport (IATA): Not regulated.
Sea transport (IMDG): Not regulated.
Transport in bulk according to Annex II of MARPOL and the IBC Code: Not regulated.
Transport/Additional information: Not dangerous according to the above specifications.

SECTION 15. Regulatory information**Safety, health and environmental regulations / legislation specific for the substance or mixture**

National regulations: Australia Hazardous Chemical Information System (HCIS) - Hazardous Chemicals
Australia Inventory of Chemical Substances (AICIS)
Australian Poisons Schedule
International Agency for Research on Cancer (IARC) - Agents Classified by the IARC Monographs
Labelling of Workplace Hazardous Chemicals - Code of Practice
Preparation of Safety Data Sheets for Hazardous Chemicals - Code of Practice

National Inventory Status:

Australia - AICIS: All the ingredients are listed or exempt.

SECTION 16. Other information

Revision Date: 03/06/2030
Issue Date: 03/06/2025

Disclaimer:

The recommendations and information contained in this MSDS have been compiled from sources believed to represent the most current information available when the MSDS was prepared. However, the manufacturer/distributor of this product provides any warranty, guaranty, or representation as to the correctness or sufficiency of this information. If this product is to be used in large amounts and/or an unusual manner, the user is obliged to determine what safety measures are appropriate, including the applicable and relevant workplace and environmental regulations pertaining to handling, use and disposal.

Key/Legend:

ADG code = Australian dangerous goods code

IATA = International air transport association

Issue Date: 03-06-2025

Revision Date: 03-06-2030

	Page 7 of 7	Actual revision:	03-06-2025
		Actual version:	5.1
		Next revision:	03-06-2030

IMDG = International maritime dangerous goods.

HCIS = Australia Hazardous Chemical Information System

AICIS = Australia Inventory of Chemical Substances

IARC = International Agency for Research on Cancer
