

Maxisafe Chemguard **Disposable Coveralls**

COC621

The Maxisafe range of coveralls are designed to protect workers from a range of hazardous substances, products and processes. They are typically used in situations where cleanliness and hygiene are critical for protection from fine particles, liquid splashes or fine spray providing a physical, throw away barrier that is cost effective and doesn't require decontamination.

Maxisafe Chemguard coveralls offer trip layer protection and meet the applicable European Standards for Chemical Protective Clothing, Category III.

TYPE 5 Particle-tight clothing. Barrier to hazardous airborne particulate materials and dust (EN 13982-1).

TYPE 6 Limited splash-tight clothing. Barrier to limited splash and liquid spray (EN 13034).
