Black Knight Hi-Vis

NITRILE COATED GLOVE

Features and Benefits

- Maxisafe's Black Gripmaster® coating technology ensures the Black Knight has excellent grip in wet, oily environments
- Multi-layered Gripmaster technology prevents oil penetration while repelling water ensuring excellent grip
- Anti-Bac antimicrobial treatment provides protection against harmful bacteria and an anti-odour barrier
- 13 gauge lycra/nylon shell provides stretch for a close fit and breathability
- No strikethrough to the inside of the glove to cause irritation or heat build up
- Machine washable increasing glove life without reducing effectiveness of Anti-Bac treatment
- Thin coating ensures superior flexibility and dexterity
- HiVis for safety

Applications

Materials handling work
General purpose work glove
Hand and power tool operations
Maintenance operations
Baggage Handling

Industries

Construction industry
Automotive industry
Logistic and warehousing
Mining
Agriculture
Pulp and paper

EN 388

Black Knight

Anti-bac™ TECHNOLOGY

About Anti-bac™

MAXISAFE announce the launch of their new Antimicrobial glove treatment. The antimicrobial coating on the gloves provides an additional level of protection to industrial workers against harmful bacteria i.e. Staphylococcus aureus ATCC 6538 and Klebsiella pneumoniae ATCC 4352, as well as an Anti-odour barrier which will not deteriorate or reduce in effectiveness with multiple washes.

Anti-bac™ is an innovative solution applying antimicrobial protection to our industrial glove range which demonstrates Maxisafe's commitment to industry leading innovation globally.

MAXISAFE commits to continuously invest in researching optimal solutions to better protect healthcare professionals and hand protection as well as to enhance human well-being.

Anti-bacterial Test

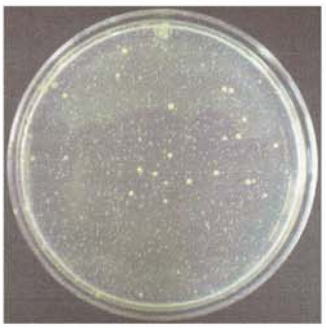

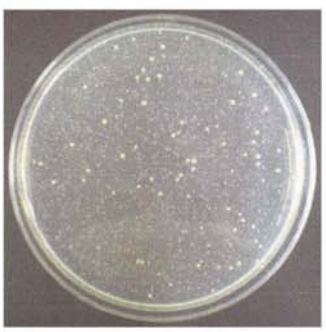

Test Item	Test Result		
	sample	Anti-bac™ 10% processing	
		Early Liner	Washing 10times
Anti-bacterial KS K0693 : 2006 - fungiatatic action decrement (%)	Test fungus 1	99.9%	99.9%
	Test fungus 2	99.9%	99.9%

* Test fungus 1 : Staphylococcus aureus ATCC 6538
* Test fungus 2 : Klebsiella pneumoniae ATCC 4352

Anti-odor Test

Test Item	Test Result	
	Anti-bac™ 10% processing	
	Early Liner	Washing 10times
Anti-Odor rate (%) : NH_3 (Ammonia) gas	100%	62.5%

(After 18hrs)

	Non Anti-bac™ Processing	Anti-bac™ 10% Processing	
		Early Liner	Washing 10times
Test fungus 1			
Test fungus 2
