

Height Safety

Offering leading edge technology and design, Maxisafe's new height safety harnesses and kits raise the bar.

Why use fall protection?

Falls from heights are the single biggest cause of death or serious injury in the workplace. For businesses whose staff and maintenance teams need to work at height quickly and effectively, fall protection is increasingly important.

Health and Safety legislation and the controlling organisations are enforcing stricter rules and best practice for safe access and working at heights.

AS/NZS 1891.1 2007

there's safe and there's Maxisafe.
